Do I need a designer?

No, we can handle everything. Ideally, if you are making custom dice, we'd like a logo to make the process easier.

What are payment terms?

We ask for 50% down on the project and 50% when we ship your goods.

Is shipping included?

No, but we will send you quotes and have you approve everything before it is sent.

I have an idea but don't see it here, can you make it?

We love a challenge, bring us your ideas and we will help make it a reality!
